

Our friends recommended Luana for our trip to Rome and she exceeded our expectations. Luana booked all our tours so all we had to do is let her know what we wanted to see and she took care of everything. She also guided us around Rome like only a Roman could. We saw all the major attractions and also interesting sights only someone with local knowledge could know. When we needed transportation Luana had first class, air conditioned Mercedes vans which were very comfortable. If you've never been to Rome and have a family, you'll appreciate the roominess afforded by the large transportation. Luana also took us to a local restaurant which served the best pizza and pasta we've ever eaten!

We also visited Naples and Florence, and Luana took care of our tours there as well. We had an especially knowledgeable guide in Florence named Ricardo who was fantastic!

We were fortunate that Luana was in Barcelona to guide us there too! Luana took our family on a walking Tapas tour, and another tour of the works of Gaudi which she is very passionate about.

Luana was very engaging and kept our two boys, ages 14 and 12, very interested in all the sights we had planned to see. Something we have problems with daily :)

We were very fortunate to have found Luana, if we were to rate her company it would be an A+.

If you're planning a trip to either Rome or Barcelona, please email Luana, you won't be disappointed.
